Murari Shrivastava
Senior Software Engineer – Python Backend & Data Systems
Email: shrivastava.murari@gmail.com | **Phone**: +91-9039948775

Profile Summary

Senior Software Engineer with 9+ years of experience building scalable backend systems and applications. Strong expertise in Python (FastAPI), database optimization, and secure system design for enterprise and government platforms. Proven ability to own end-to-end development, improve reliability, and deliver performant software under strict security and compliance constraints.

Technical Expertise

- **Languages:** Python, PHP, JavaScript.
- **Python Ecosystem :** FastAPI, NumPy, Pandas, Matplotlib
- **Backend:** Django, REST APIs
- **Databases:** MySQL, Microsoft SQL Server, MongoDB
- **System Design:** Scalability, Caching, API Design
- **Cloud/DevOps:** AWS, GitHub Actions, CI/CD
- **Tools:** Git, WordPress (custom themes/plugins)

Professional Experience

Senior Software Engineer
Aid4sure Corporate services Pvt Ltd
Apr 2025 – Present

• Led backend development using Python/Django for scalable architecture.
• integrated AI tools (Copilot, ChatGPT) for efficient coding.
• customized WordPress frontends, managed database solutions.
• Implemented CI/CD pipelines using GitHub Actions and AWS.
• Developed custom web applications for clients in e-commerce, healthcare, and education sectors.
• Built a scalable e-commerce platform using WordPress, integrating Stripe for payments.
• Created a Django-based content management system for a company, enabling seamless content updates and reducing administrative workload.
• Collaborated with clients to gather requirements, provide technical consultation, and deliver projects within deadlines and budgets.

Senior Software Engineer & DBA
AARDEE Solution Pvt Ltd, New Delhi (Client: Joint Controller of Defence Accounts)
Apr 2022 – Mar 2025

- Architected and deployed secure full-stack applications for defence financial systems handling sensitive pension and audit data.
- Designed optimized database schemas and queries, improving reporting performance and reliability.
- Led time-critical upgrades and migrations with zero data loss and uninterrupted availability.

- Established development and documentation standards to ensure scalability, maintainability, and security compliance.

Software Engineer & DBA
Akal Infosystem Pvt Ltd, New Delhi (Client: Indian Air-Force)
Nov 2019 – Mar 2022

- Managed and optimized Microsoft SQL Server databases for large, sensitive defence datasets.
- Developed backend components for secure, high-reliability applications used by Air Force personnel.
- Improved query performance and system stability through indexing and schema optimization.

Software Engineer (Backend – PHP)
Spread Digital, New Delhi
Feb 2017 – Aug 2019

- Built scalable PHP/MySQL backend systems and optimized databases for growing traffic.
- Collaborated with frontend and QA teams to deliver reliable, production-ready software.

Web Developer
Codelogic Consultancy Services India Pvt Ltd, Gwalior
Jun 2015 – Jan 2017

- Built responsive web applications using PHP and MySQL, focusing on backend stability and performance.
- Implemented and tested server-side features to support business workflows.

Key Projects

ListedVegan – Python, Django, MySQL

- Built a location-based platform using REST APIs to discover nearby vegan food options with scalable backend design.

Pension Sanction System (Defence) – PHP, MySQL

- Developed a secure system for auditing pensions and generating e-PPOs for retired Indian Air Force personnel.

Indian Vegetable Price Analysis – Python, Pandas, NumPy, Matplotlib

- Performed data analysis on vegetable price datasets across cities.
- Built data cleaning pipelines and visualized price trends using Pandas and Matplotlib.
- Generated insights on seasonal price fluctuations and market differences.

Education

B.E. – Computer Science & Engineering
Rajiv Gandhi Prodyogiki Vishwavidyalaya (RGPV), Bhopal

CERTIFICATION

Data Science & Analytics – HP LIFE (HP Foundation)
Completed training in data science lifecycle, analytics methodologies, and data-driven decision systems.
Generative AI Certification – (Currently Pursuing)
